The Birth of UNITED STATES OF ISLAM

They say a clash of Civilizations is imminent, if it is, then perhaps its only, major casualty is going to be the Muslim world.

The book is a call to Muslims to pre-empt the tragedy before it occurs, to rise as one man and to ensure that history's bloodiest encounter does not take place. United States of Islam is a must for sustainable revival of Islam, and the book is an essential reading for everyone interested in peace, prosperity and well being, and indeed the survival of Islam in the complex world of days ahead.

The author maintains that the book should be read on its own merit and its message understood as universal need of the hour, and not of the Muslims alone.

He has not specifically asked any luminaries to comment or recommend its reading. He believes that only great merit of this book lies in its cause - The Birth of United States of Islam.

**The Author,
Jawed-ul-Haq Siddiqui,
a local businessman, is a researcher on
economics and international affairs.**

**The Editor & co-author,
Firdause. A. Sheikh,
is a journalist. He publishes and edits
the monthly Chronicle.**

Together they accepted the challenge of creating this publication, and together they aspire the consequent birth of United States of Islam in the opening decade of 21st Century.
