## Preface

---

his book, by my small endeavour, is in requital with my education especially at the I.I.U.M (International Islamic University of Malaysia). It attempts to unfold the panorama of the Chinese Muslim community in its various aspects, its intricacy and long history of Islam within the Muslim population in the vast land of China and overseas. The contents of this book are more informative than creative with the goal of promoting the awareness and the relationship of Islam between China and the outside world and within the Muslim nations in particular.

Nevertheless, with Allah's blessings, this book is dedicated to my beloved Chinese Muslims.
