**WINNER OF THE LOS ANGELES TIMES BOOK AWARD FOR HISTORY**

Never has it been so important for Westerners to understand the Soviet peoples. In this acclaimed book, Geoffrey Hosking traces the evolution of the Soviet political system from its origins in 1917 to the present day. He shows how power has rarely been devolved outside a particularly tightly-knit ruling elite, and he focuses on the forms of contact that have existed between rulers and ruled. He places special emphasis on the role of the peasantry, urban workers and the professional classes. Drawing on a mass of monographs and memoirs to show how they have generated their own informal practices to adjust to changing Soviet social structures, and how, more often than is commonly realised in the West, they have resisted repression and deprivation.

This new edition has been updated to include Hosking's account of the convulsions in Soviet society which have attended Gorbachev's *perestroika*. It provides a vivid picture of what it has felt like to be a Soviet citizen during the tumultuous upheavals of the twentieth century.

'The outstanding merit of Professor Hosking's book is that the author knows and understands Russians, and brings this understanding to bear on his study of history.'

R.W. Davies, *THES*

'This is a first-rate introduction to Russian history since 1917... No-one reading it can fail to be impressed by its sound sense, its mature weighing up of the issues and its considered judgements.'

Pierre Watter, *TES*
