Dramatic Story Of a People

**In this leaflet you will read the
dramatic story of a people'
stripped of their right
to live humanly,
restricted in terms
of child production,
deprived of contemporary
earthly profits,
surrounded by natural
and economic riches
in all directions and
yet have to lead a life of
poverty in their own
homeland,
thirsty for
independence
and
freedom,
need to be
remedied by nations
of the world,
and placed to death
by nuclear testings
undertaken
a few
times a year.**

EASTERN TURKESTAN

The place of Eastern Turkestan

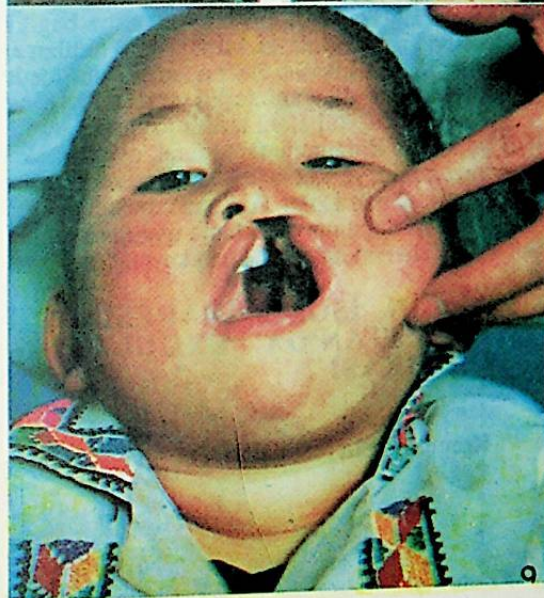

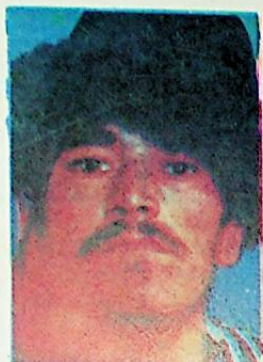

Eastern Turkestan is in of Central Asia. This country which is the most ancient centre of culture, civilisation and humanity is the homeland of Turks.

Ancient migration paths have left their traces in this country which is at the same time the center of the historical "Silk Road", and is rather away from seashores. The country has remained since 1949 within Chinese invasion state's border.

Turks live in dry lands, suburb streets which have no water, electricity.

Some of these places don't even have a proper path to walk on.

Communist China is building the major part of its in Eastern
Turkestan: An Islamic country rich in uranium one.
