The only purpose of this edition is to divulge the historic truth about great political secrets and vital events now happening in the world.

For that reason, copies of this edition are distributed in a gratuitous way, and we thank the philanthropists in Mexico City who financed this edition with the only wish of benefitting humanity.

We exhort all patriots in the world to diffuse this book among the highest possible number of people, printing and distributing this work, because neither the author nor the translator or the editor have reserved special rights for themselves. Those who publish this book may do it either gratuitously or charging for it, but no one can reserve for himself exclusive rights of authorship, translation or edition.
