Contents

<i>Foreword</i>		<i>xi</i>
<i>Preface</i>		<i>xiii</i>
<i>Acknowledgments</i>		<i>xv</i>
<i>Abbreviations</i>		<i>xvii</i>
	Overview	1
	Moving on a Connectivity Agenda	2
	Drivers for Change	4
	Measures to Improve Connectivity	5
	Improving the Quality of Transport Links and Cross-Border Connectivity	5
	Moving Containers Efficiently: Europe and East Asia Rail Freight	6
	Enhancing the Private Sector in Logistics Services	7
	Expanding Trade and Transit Facilitation Initiatives	8
	Notes	9
	Reference	9
Chapter 1	From the Old to the Modern Silk Route	11
	Looking Back at the Old Silk Road	11
	The Eurasian Connection Nowadays	12
	The Silk Route Countries: Trade and Physical Networks	13
	Establishing Reliable Supply Chains	19
	Notes	20
	Reference	20
Chapter 2	Connecting Central Asia to the World	21
	Pattern of Trade along the Modern Silk Route	22
	Trade Costs Patterns along the Modern Silk Route	23
	Supply-Chain Performance in Central Asia	27
	Two Game Changers: The Customs Union and the Rise of Trade with China	30
	Notes	33
	References	33

Chapter 3	Rail Freight Transit along the Modern Silk Route	35
	Rail Transport as the Backbone of Central Asian Connectivity	36
	Transit Trade (Transcontinental): Institutional Arrangements	39
	Euro-Asian (Transcontinental) Transit Trade along the Modern Silk Route	40
	Long-Distance Silk Route to Complement Shipping: Servicing Niche Markets	43
	Notes	48
	References	48
Chapter 4	Road Transport Connections along the Modern Silk Route	51
	Connecting Central Asia at a Regional Level	51
	Long-Haul Road Freight Transport and Transports Internationaux Routiers	53
	Framework of International Road Freight Transport and Transit along the Silk Road	55
	Notes	58
	References	59
Chapter 5	Supply-Chain Efficiency and Logistics Costs	61
	Logistics and Supply-Chain Efficiency	61
	Performance of Transcontinental Rail Transit: Europe-Asia	63
	Performance of Long-Distance Road Transportation: Turkey-Central Asia and Uzbekistan-Russia	66
	Impact of Supply-Chain Inefficiencies: Logistics Costs	71
	Notes	74
	References	74
Chapter 6	Underlying Obstacles to Supply-Chain Efficiency	75
	Fragmentation and Supply-Chain Bottlenecks	75
	Technical, Commercial, and Operational Constraints: Railways	78
	Technical, Commercial, and Operational Constraints: Road Transport	81
	Bottlenecks for Cross-Border Supply Chains and Trade Facilitation	83
	The Limitations of Cross-Border Cooperation in the Current Institutional Framework	86
	References	91
Chapter 7	Improving the Eurasian Connection	93
	Challenges and Opportunities in Advancing the Connectivity Agenda	93
	Implementation Dynamics and Drivers for Change	95

	Specific Measures to Improve Connectivity	97
	Summarizing the Impact	102
Appendix A	Overview on Initiatives for Technical and Financial Coordination and Development of Land Routes through Central Asia	103
	Reference	104
Appendix B	Logistics Performance Index	105
	References	106
Appendix C	Time and Cost of Transport by Road and Rail	107
	Reference	108
Appendix D	Examples of Road Freight Transportation Prices to and from Main Markets of the Kyrgyz Republic, February–March 2012	109
Appendix E	Examples of Road Freight Transportation Prices to and from Main Markets of Tajikistan, February 2012	111
Boxes		
0.1	What Is Supply-Chain Connectivity?	3
2.1	General Motors Uzbekistan	24
2.2	What Are the Sources of Trade Costs?	25
2.3	Legislation of the Customs Union	31
3.1	The Almaty Programme of Action, 2003	39
3.2	Simplification of Freight Documentation	41
3.3	Existing Models for Freight Transportation	45
4.1	The Utilization of International Instruments	57
4.2	Transit Regime	58
6.1	Voices of the Private Sector	77
6.2	Main Corridor Initiatives in the Central Asia Region	88
6.3	Trade and Transport Facilitation in the Eurasian Customs Union	90
6.4	The Shanghai Cooperation Organization	90
7.1	Public-Private Logistics Strategies	94
7.2	Policies to Develop Western China	96
Figures		
1.1	Central Asian Countries: Trade Growth as a Percentage of GDP, 2001–11	14
2.1	Trade Costs Patterns, with China, Germany, and Russia, All Nonenergy Trade, 2009	26

2.2	Logistics Performance Score, by Gross National Income Per Capita, Central Asia and Other Countries, 2011	28
2.3	Intraregional Comparisons across Logistics Performance Index Dimensions, 2012	29
2.4	Country Scores as a Percentage of Highest Performer in the Overall Logistics Performance Index, 2012	30
2.5	Decreasing Nonenergy Trade Costs with China, Nonenergy Trade, 2000–10	32
2.6	Trade Costs of Kazakhstan with Its Main Trading Partners, 2000–09	33
3.1	Railway Border Crossing Traffic at Alashankou (Kazakhstan–China Border), 2002–10	37
3.2	Market Segmentation of Transportation Services on the Eurasian Link: Lead Time versus Price	43
3.3	Existing Models for Long-Distance Freight Transportation	46
4.1	Components of the Transit System	55
5.1	Logistics and Supply-Chain Efficiency: Reliability versus Costs	62
5.2	Rail Costs for 40-Foot Container in Transit	64
5.3	High Wear and Tear of Rolling Stock in Kazakhstan, 2009	65
5.4	Median Speed and Reliability for Transit Country, All Corridors	67
5.5	Cost Structure of Four Companies Transporting by Road in Kazakhstan	68
5.6	Cost Structure of Road Carriage in Europe and for Four Kyrgyz Carriers	69
5.7	Prices for Freight Transportation from/to Russia to/from Kazakhstan (as of April 2013)	70
5.8	Prices for Freight Transportation from/to Germany to/from Kazakhstan (as of April 2013)	70
5.9	Logistics Costs Broken into Components as a Percentage of Net Sales: Example of Finland	71
5.10	Total Logistics Costs versus Transportation Costs	72
6.1	Supply-Chain Sequence in Kazakhstan	76
6.2	The “Spaghetti Bowl” of Regional Organizations in Central Asia	87
B.1	Input and Output Logistics Performance Index Indicators	106
C.1	Time and Cost of Transport by Road and Rail	107

Maps

1.1	Regional Road Network in Central Asia, 2012	16
1.2	Regional Rail Network in Central Asia, 2012	16
1.3	Long-Distance Traffic Routes through Central Asia	17

Tables

O.1	How the Measures in the Plan of Action Will Affect Supply-Chain Performance against the Six Dimensions of the Logistics Performance Index	5
-----	---	---

1.1	Main Indicators for Central Asian Countries, 2012	14
1.2	Central Asia and Its Peers: Production and Growth Patterns, 2010	15
1.3	Road and Rail Network Length in Central Asia, 2010/11	15
2.1	Change in Origins of Imports for Central Asian Countries: Emergence of China, 2000–10	22
2.2	Share of Regional Trade among Central Asian Countries	22
2.3	Matrix of Regional Trade, 2010	23
2.4	Eurasian Trade Costs, Nonenergy Trade, 2009 (Ad Valorem Equivalent)	27
2.5	Logistics Performance Index Results for the Central Asian Countries, 2012	28
3.1	Rail Freight Volume and Turnover in Central Asia	36
3.2	Exports from the Republic of Korea to Central Asia, 2011–12	37
3.3	Agreements on Rail Freight Transportation	40
3.4	Scheduled Container Rail Services (Block Trains) Operating between Europe and Asia (as of Mid-2013)	47
4.1	Import, Export, Transit by Road in Central Asia (Originating in China), 2009	52
4.2	Export and Import Traffic to and from China, 2011	52
4.3	Volume and Value of Freight Transport through the Main Border Crossings with China, 2011	53
4.4	Number of Authorized Transports Internationaux Routiers Operators and Carnets Issued to National Associations in Central Asia and in Selected Countries, 2012	54
B4.1.1	Participation of Central Asian Countries in Conventions and Organizations Facilitating Trade and Transportation	57
5.1	The Three Components of Total Logistics Costs	63
5.2	Lead Time and Cost for Container Block Trains on TKR and TSR	66
5.3	Additional Costs Paid by Truckers on Southern Corridors from Central Asia to Turkey	67
5.4	Total Logistics Costs in Retail Activity in Kazakhstan	72
5.5	Estimates of Logistics Costs of Trading in Central Asia	73
5.6	Percentage of Turnover Allocated to Logistics Costs	73
7.1	How Measures in the Plan of Action Will Impact Various Dimensions of Supply-Chain Performance According to the Six Logistics Performance Index Categories	102
C.1	Average Road Carriage Prices from Main Markets	108
