“Enticing . . . hard to put down.” —*Associated Press*

The Mongol queens of the thirteenth century ruled the largest empire the world has ever known. The daughters of the Silk Route turned their father's conquests into the first truly international empire, fostering trade, education, and religion throughout their territories and creating an economic system that stretched from the Pacific to the Mediterranean.

Yet sometime near the end of the century, censors cut a section about the queens from the *Secret History of the Mongols*, and, with that one act, the dynasty of these royals had seemingly been extinguished forever, as even their names were erased from the historical record.

With *The Secret History of the Mongol Queens*, a groundbreaking and magnificently researched narrative, Jack Weatherford restores the queens' missing chapter to the annals of history.

“A fascinating romp through the feminine side of the infamous Khan clan.” —*Booklist*

“Uplifting, entertaining history.” —*Kirkus Reviews*

Praise for Jack Weatherford's

Genghis Khan and the Making of the Modern World

“Few contemporary writers have Weatherford's talent for making the deep sweep of history seem vital and immediate.” —*Washington Post*

“A very fine book . . . a necessary corrective to the Enlightenment-invented view of Genghis Khan as an unbridled savage . . . irresistible.” —*National Review*

JACK WEATHERFORD holds the DeWitt Wallace Chair of Anthropology at Macalester College in Minnesota and an honorary position at Chinggis Khaan University in Mongolia. In 2007 he received the Order of the Polar Star, the highest award for service to the Mongol Nation of Genghis Khan.
