Turkey's Defence Strategy

Necip Torumtay*

At the outset, I would like to express my conviction that this historic initiative, which brings together the highest military representatives of all CSCE countries, is a major step towards the establishment of continuous, tension-free and lasting peace in Europe.

I also would like to join my colleagues in thanking the Austrian government for the excellent arrangements made.

A The significance of this forum, at which 35 CSCE countries will discuss all aspects of their understanding of the concepts of defense and offensive action, is evident.

* Necip Torumtay, General-Chief of General Staff
